Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Friday 19 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with some patchy drizzle, drier later but mild.

Today:
A cloudy start on Friday with some patchy drizzle first thing but becoming drier through the morning with some bright spells developing in the afternoon. Another very mild day. Maximum temperature 14 deg C (57 deg F).

Tonight:
Any clear spells gradually filling in as cloud builds from the north, the cloud thick enough for the odd spot of light drizzle by dawn, particularly across the moors. Minimum temperature 8 deg C (46 deg F).

Saturday:
Saturday will be a cloudy day for many with further outbreaks of light rain and drizzle here and there, however the odd brighter spells is possible in places. Maximum temperature 12 deg C (54 deg F).

Outlook for Sunday to Tuesday:
Turning colder. After a brief spell of rain early on Sunday, skies will brighten. Cold and showery Monday. Becoming rather cloudy on Tuesday perhaps with some frost in sheltered locations.
